## PERFORMANCE AIR INTAKE

2882519 ⚠

Let the engine inhale more freely and deliver more power, quicker acceleration, and a quicker throttle response. This is a direct replacement for the standard motorcycle air intake. Dealer installation required. ⚠ See legal disclaimer below. Fits model year 2015-2023.

⚠ This kit meets EPA and CARB emission limits. Non-competition street use on motorcycles subject to USEPA noise limits &amp; may violate federal noise limits. Please see inside back cover for further information.

Performance parts are 50 state emissions compliant. Non-competition street use on motorcycles subject to USEPA noise limits &amp; may violate federal noise limits. Indian Motorcycle recognizes the importance of environmental laws that regulate exhaust and noise emissions and is committed to developing performance parts that allow motorcycle enthusiasts to modify their vehicles in a safe and responsible manner. Emissions / Safety: Federal and many state laws prohibit the removal, modification, or rendering inoperative any part installed on motor vehicles by Indian Motorcycle affecting emissions or safety on motor vehicles manufactured for use on a public street or highway. Violation may result in fines. International markets, please consult your local laws for additional information. Noise: Certain Indian Motorcycle performance parts are subject to noise-related usage restrictions. The warning statement for these parts includes the statement, "On road use of this product may violate federal law." These products are designed for use on closed course motorcycles only and do not conform to U.S. EPA noise emission standards. Use on motorcycles subject to EPA noise regulations constitutes tampering and is a violation of Federal law unless it can be shown that such use does not cause the motorcycle to exceed applicable Federal Standards.

This kit does not void factory warranty, and it includes the required Calibration Code to upgrade the Engine Control Module (ECM). The Calibration Code allows this kit to be properly installed by your dealer. No additional software purchase needed. Each kit is designated with a warning triangle to indicate the restrictions that may apply.

Performance parts are 50 state emissions compliant. Non-competition street use on motorcycles subject to USEPA noise limits & may violate federal noise limits. Indian Motorcycle recognizes the importance of environmental laws that regulate exhaust and noise emissions and is committed to developing performance parts that allow motorcycle enthusiasts to modify their vehicles in a safe and responsible manner. Emissions / Safety: Federal and many state laws prohibit the removal, modification, or rendering inoperative any part installed on motor vehicles by Indian Motorcycle affecting emissions or safety on motor vehicles manufactured for use on a public street or highway. Violation may result in fines. International markets, please consult your local laws for additional information. Noise: Certain Indian Motorcycle performance parts are subject to noise-related usage restrictions. The warning statement for these parts includes the statement, "On road use of this product may violate federal law." These products are designed for use on closed course motorcycles only and do not conform to U.S. EPA noise emission standards. Use on motorcycles subject to EPA noise regulations constitutes tampering and is a violation of Federal law unless it can be shown that such use does not cause the motorcycle to exceed applicable Federal Standards.

This kit does not void factory warranty, and it includes the required Calibration Code to upgrade the Engine Control Module (ECM). The Calibration Code allows this kit to be properly installed by your dealer. No additional software purchase needed. Each kit is designated with a warning triangle to indicate the restrictions that may apply.

This kit meets EPA and CARB emission limits. Non-competition street use on motorcycles subject to USEPA noise limits & may violate federal noise limits. Please see inside back cover for further information.

Performance parts are 50 state emissions compliant. Non-competition street use on motorcycles subject to USEPA noise limits & may violate federal noise limits. Indian Motorcycle recognizes the importance of environmental laws that regulate exhaust and noise emissions and is committed to developing performance parts that allow motorcycle enthusiasts to modify their vehicles in a safe and responsible manner. Emissions / Safety: Federal and many state laws prohibit the removal, modification, or rendering inoperative any part installed on motor vehicles by Indian Motorcycle affecting emissions or safety on motor vehicles manufactured for use on a public street or highway. Violation may result in fines. International markets, please consult your local laws for additional information. Noise: Certain Indian Motorcycle performance parts are subject to noise-related usage restrictions. The warning statement for these parts includes the statement, "On road use of this product may violate federal law." These products are designed for use on closed course motorcycles only and do not conform to U.S. EPA noise emission standards. Use on motorcycles subject to EPA noise regulations constitutes tampering and is a violation of Federal law unless it can be shown that such use does not cause the motorcycle to exceed applicable Federal Standards.

This kit does not void factory warranty, and it includes the required Calibration Code to upgrade the Engine Control Module (ECM). The Calibration Code allows this kit to be properly installed by your dealer. No additional software purchase needed. Each kit is designated with a warning triangle to indicate the restrictions that may apply.

## PICKING THE RIGHT WINDSHIELD

The 13.7 In. Flare Windshield will give your bike a style boost while the 11.3 In. Windscreen will give your Chieftain a more low-profile look. For riders looking for wind protection, a windshield that stops shortly below eye level will prevent you from looking through bug splatter, while directing air over your head. For touring riders, we recommend the 21 In. Touring Windshield.

# PROTECTION

11 IN. LOW WINDSHIELD

## PICKING THE RIGHT WINDSHIELD

The 11 In. Curved Windshield will give your bike a style boost while the 11 In. Low Windscreen will give your bike a more low-profile look. For riders looking for wind protection, a windshield that stops shortly below eye

level will prevent you from looking through bug splatter, while directing air over your head. For touring riders, we recommend the 19 In. Tall Windshield.

# OILS & LUBRICANTS

Indian Motorcycle Lubricants are engineered specifically to provide unmatched protection and performance in both air cooled and liquid cooled motorcycle engines. Our formulas are designed to resist high heat and thermal breakdown, keep the engine clean to maximize horsepower and protect gear and transmission components while providing optimum clutch and shifting characteristics. After-market oils are generally produced to fit a wide variety of brands, engine sizes and transmission configurations. Indian Motorcycles invests millions in engine development, including testing each and every lubricant we produce, in field validation and engine dynamometer testing, to ensure we have the highest quality of oils and lubricants available for your Indian Motorcycle.

# NOCO® BATTERY CHARGERS

- **All-in-one solution:** Battery charger, battery maintainer, trickle charger, plus battery desulfator.
- **Enjoy precision charging:** An integrated thermal sensor detects the ambient temperature and alters the charge to eliminate over-charging in hot climates and under-charging in cold climates.

- **Charge dead batteries:** Charges batteries as low as 1-volt. Or use the all-new force mode that allows you to take control and manually begin charging dead batteries down to zero volts.
- **Restore your battery:** Automatically detects battery sulfation and acid stratification to restore lost battery performance for stronger engine starts and extended battery life.

- **Beyond maintenance:** It's not just a trickle charger, it's an advanced battery maintainer. A fully-automatic, worry-free battery charger for everyday use - 24/7 - with zero overcharge.
- Includes Boost Eyelet Cable with X-Connector Adapter (2830546)

## BATTERIES

To ensure a battery maintains its level of charge when unused for extended periods of time or during freezing weather, the battery should be connected to a NOCO® Battery Charger (see P. 154). Be sure to check for corrosion from the terminals to the ends of the cables.

## SPARK PLUGS

New spark plugs, engineered specifically for your Indian Motorcycle, ensure quick starts, fuel efficiency and peak performance.

## BRAKE PADS

Maintaining and/or replacing brakes is critical to the safety and functionality of a motorcycle. Brake pads should be checked for wear and oil or grease (petroleum products) contamination. Brake discs should be checked for cracks, excessive corrosion or warping.

## TIRES

Inspecting and replacing tires when needed is critical to the safety and functionality of a motorcycle.

## OIL FILTER

Change oil filters with every oil change to provide the best engine protection and keep the engine operating at peak performance.

## AIR FILTER

A clogged air filter can restrict air flow to the engine leading to reduced engine performance, engine life or catastrophic failure.

⚠️ Performance parts are 50 state emissions compliant. Non-competition street use on motorcycles subject to USEPA noise limits & may violate federal noise limits. Indian Motorcycle recognizes the importance of environmental laws that regulate exhaust and noise emissions and is committed to developing performance parts that allow motorcycle enthusiasts to modify their vehicles in a safe and responsible manner. Emissions / Safety: Federal and many state laws prohibit the removal, modification, or rendering inoperative any part installed on motor vehicles by Indian Motorcycle affecting emissions or safety on motor vehicles manufactured for use on a public street or highway. Violation may result in fines. International markets, please consult your local laws for additional information. Noise: Certain Indian Motorcycle performance parts are subject to noise-related usage restrictions. The warning statement for these parts includes the statement, "On road use of this product may violate federal law." These products are designed for use on closed course motorcycles only and do not conform to U.S. EPA noise emission standards. Use on motorcycles subject to EPA noise regulations constitutes tampering and is a violation of Federal law unless it can be shown that such use does not cause the motorcycle to exceed applicable Federal Standards.
